

Design your own tray

SPECIAL hospitality tray

CUSTOMIZE OUR STANDARD MODELS OR DESIGN FROM SCRATCH

Every hotel has its own character, shaped by atmosphere, detail, and design. With our customized solutions, we help bring that identity to life through carefully designed hospitality trays that integrate seamlessly into your interior.

We offer a wide range of possibilities, allowing each tray to be adapted in colour, material, size, and layout. In addition to tailoring our existing models, we also offer the possibility to develop entirely bespoke designs from scratch.

Working from concepts, mood boards, or project specifications, our team translates your ideas into practical and refined solutions. Whether you have a clear vision or are looking for guidance, we collaborate closely to create designs that reflect the character of your hotel.

From initial concept to final production, we ensure that every detail is considered. The result is a product that not only meets functional requirements, but also contributes to a cohesive and elevated guest experience.
