A well-stocked warehouse for fast delivery

Bas Ronteltap: “With our own warehouse in the Netherlands, B-TRAY ensures fast and reliable delivery worldwide. Our facility offers extensive storage capacity, allowing us to ship most orders directly from stock — whether it concerns small quantities or larger volumes.

By combining in-house logistics with trusted international partners, we deliver efficiently and on time, wherever your project is located.”

Nothing too remote for B-TRAY

We deliver worldwide, reaching even the most remote locations. From New Caledonia to Bora Bora, no destination is too far.

B-TRAY's environmental commitment

As a company, we aim to deliver high-quality products for the hotel and hospitality industry while minimising our environmental impact. We work with recycled materials and reduce packaging by limiting plastics and using more sustainable alternatives.

We support reforestation through our partnership with WeForest. For every five wooden hospitality trays and three luggage racks sold, we plant a tree in Zambia or India.

B-TRAY is also affiliated with WeCycle, a Dutch non-profit organisation focused on WEEE recycling, supporting the responsible processing of electrical waste into new raw materials.

Mix & Match

Create a consistent and refined look throughout your hotel rooms with B-TRAY's coordinated product range. Our faux leather accessories are designed in matching colours and finishes, allowing you to combine different items into one cohesive collection.

From desk accessories and trays to waste bins and tissue boxes, all products are available in matching colours such as warm beige and black. This makes it easy to create a harmonious and well-balanced interior.

The concept extends beyond accessories. Our luggage racks can be fitted with leather straps in matching colours, allowing you to integrate different product categories within the same design language.
